Designing Windows

Incredible Interiors! LLC cordially invites you and your friends to WINE AND DESIGN on April 1, 2009. The event will be held at Manchester Place, 601 W. Slifer, Portage, WI. WINE AND DESIGN will be a fundraiser for the American Cancer Society Portage Relay for Life. Tickets for the event will be \$10 per person at the door. All proceeds will be given to Relay for Life.

Beginning at 5:45, guests will register and have the opportunity to sample various Wollersheim Wines including the newly released American Port and Prairie Sunburst Red (released March 1, 2009). Numerous displays will be available for viewing as well a registration for door prizes.

At 6:30, everyone will have the opportunity to listen to nationally-recognized Hunter Douglas interior designer, Sally Morse, as she presents, "Ten Steps to a Perfect Room." This is one of Sally's most popular seminars. It answers some of the most asked questions from her "Ask Sally" column, located in "Sally's Design Center" at hunterdouglas.com. Whether you are building a new home, moving into an older home, remodeling or just want to improve what you have, this is the seminar for you. Sally leads you through the steps of where to start your plan, then adding furniture, lighting, windows, walls, floors and accessories. The 'rules of thumb' demystifies the process of decorating and makes anyone feel like a pro.

You are welcome to invite your friends and family. For more information call Georgi at 608-745-0206.

WE ARE HUNTER GREEN...

Hunter Douglas is the world-wide leader in creating innovative, creative, energy-efficient window treatments that save valuable energy resources and reduce greenhouse gas emissions. Besides being "green", the Hunter Douglas window treatments make interiors brighter, beautiful, as well as private and comfortable.

In 1985, the Duette honeycomb shade began the window treatment revolution on significant energy efficiency improvement. Within the honeycomb cells, air is captured in order to become an effective insulator, keeping heat inside in the winter and keeping it out in the summer. The Silhouette was created following the Duette. Then came the popular Vignette Modern Roman Shade, the Luminette Privacy Sheer and the Pirouette window shadings. All are green....providing needed energy efficiency.

Hunter Douglas' most recent creation, the Duette Architella honeycomb shades, takes energy efficiency to a higher level. The Architella is a patented honeycomb-within-a-honeycomb design forming three air pockets to dramatically reduce heat flow at the window. If the Duette Architella was installed in every window in the United States, the

Duette Architella has the potential to cut the annual energy consumption by 2 ½ % in the US. While this doesn't seem to be significant, it is the equivalent of 33% increase in fuel mileage for all passenger cars on the US roads. This would potentially save about 450 million barrels of oil annually and reduce CO2 emissions by almost 200 million tons!

Hunter Douglas has made the commitment to minimize the impact on the environment through an aggressive plan to reduce energy consumption by 15%, water usage by 40% and overall carbon emissions by 20% over a three-year period. This means retooling production processes in order to achieve these goals.

Hunter Douglas also supports the Arbor Day Foundation in its efforts to replant trees across America that are lost in forest fires and to preserve dwindling rain forests. This translates into 15,000 new trees annually. Another philanthropic relationship is with Habitat for Humanity. In the past fifteen years, more than 100,000 window coverings have been donated to homes for low income families. Hunter Douglas employees have also helped to build hundreds of homes.

From products to processes to philanthropy, environmental responsibility is a core value of Hunter Douglas.

Are we "green"? You bet!

SPRING SAVINGS....Stop the Great Energy Giveaway!

The spring rebate program, Stop the Great Energy Giveaway, is focused on raising consumer awareness on how easy it is to "go green" and get a handle on energy loss with Hunter Douglas window fashions, while further rewarding them with significant rebate savings on select products. The promotion continues only until April 30, 2009...so call Georgi today to schedule a time for her to come to your home or place of business.

Listed below are the spring rebates (10 maximum per window treatment):

- \$300 rebate per window on Duette Vertiglide Honeycomb Shade with Duolite option
- \$200 rebate per window on Duette Vertiglide Honeycomb Shade
- \$200 rebate per window on Luminette Privacy Sheer
- \$150 rebate per window on Park lane Privacy Sheers
- \$150 rebate per window on Skyline Gliding Window Panels
- \$100 rebate per window on Sihouette Window Shadings
- \$75 rebate per window on Pirouette Window Shadings
- \$50 rebate per window on Duette Honeycomb shades with Literise Cordless system and Top-Down/Bottom-Up Design
- \$50 rebate per window on Nantucket Window Shadings
- \$50 rebate per window on Vignette Modern Roman Shades

Remodeling and/or Redecorating....Perhaps I Can Help You

If you are thinking of a remodeling or a redecorating project and you just don't know who to turn to, perhaps I can help you. I feel comfortable in making recommendations in many areas regarding trades-people who are trustworthy, take pride in the workmanship, and are affordable. If you need help in finding someone to do the work, please give Georgi a call so that she can help you locate just the right person or company for the job.
